My Hobbies & Personality :)

Creativity & humility drive everything I do. I'm friendly & altruistic by nature, and passionate about geography & history, often called a "human encyclopedia" by friends.

Driven by purpose & curiosity, I always reason & analyze to find answers.

I love utilizing my powers (which is actually my skills + personality) to make a difference 😊

ABOUT ME

A data-driven analyst who doesn't just crunch numbers but uncovers stories hidden in data to create insightful reports that drive impactful decisions. Proactive, motivated, and full of sisu- I do what I love, and I love what I do.

EXPERIENCE

Business Analyst Intern

Dec 2025 - present

Oulu Hotelli Operations Oy

- Analyzed customer data using Python to identify booking and experience trends
- Built Power BI dashboards to track occupancy, revenue, and customer metrics
